The Energy Conversion Congress and Exposition is the world’s leading technical conference and exposition for energy conversion solutions: solutions that are innovative, practical, and customer-focused. ECCE is the ideal place for companies to exhibit and promote their products and services to those driving innovative research, and delivering the results to market.

As international forums drive progress towards an ever more electrified and connected future, energy conversion is an unavoidable stop in the journey. The Energy Conversion Congress and Exposition provides a connection point between the components and tools required in product development to industry researchers and manufacturers.

The ECCE program places strong emphasis on practical, timely and state-of-the-art topics in the many research areas related to energy conversion, offering a unique blend of the best in applied integrated systems research with innovations in individual energy conversion components and tools.

Exhibitors at ECCE showcase state-of-the-art technologies, products, and solutions, creating a highly interactive networking environment.

Don’t miss the opportunity to get ahead of the competition and showcase your company, products, and services at the premier event within the field of electrical and electromechanical energy conversion.
